

LiftMaster® Hosted Cloud Service for IPAC & Internet Protocol Door Control

Let the Cloud Do All the Work

LiftMaster® Hosted Cloud Services

Provide real-time monitoring and management of your access control system – anytime, anywhere. A flexible, open technology you administrate from a web browser, LiftMaster Cloud Services require no additional software to install.

The scalable services allow facilities to expand their system as their needs evolve. Access management and control just got a lot easier.

Work More Efficiently

- Make updates 24/7 (no software to install), so you never have to take an IPAC offline
- Remotely manage resident info from any browser so you don't have to visit the property
- VoIP technology eliminates long-distance fees and replaces old analog phone lines

Unlimited Expansion

- Network as many gates and doors as required
- Remotely manage multiple sites from a single login
- Customizable Admin permission levels

Hardware for Every Application

- Use IPAC for entrances requiring telephone entry and access control
- Use Door Controllers (SKU: IPACIPDCC) at all other entrances requiring access control

LiftMaster®

LiftMaster® Hosted Cloud Service for IPAC & Internet Protocol Door Control

LiftMaster® Cloud Hosted Services Protect Your Facility

- Manage the access control system for one or hundreds of facilities, utilizing our cloud-based service
- Use desktop or mobile browser to set schedules for customized facility access by person, time and location
- Stay informed of critical events through programmable notifications delivered in real time via email and text
- Instantly know who is entering using real-time 24/7 activity reporting

Reduce the Complexity of Facility Access Control

- Eliminate local servers and PC based software by shifting operational workload to the cloud solution
- Reduce security risk with services delivered from secure, redundant data centers
- Replace fixed capital expenses and maintenance costs with a predictable Software as a Service (SaaS) model

Hosted Cloud Features

- Hosted access control
- Unlimited site and device capacity
- Unlimited credentials and administrators
- Rules-based email and text notifications
- Automatic software updates
- Customizable reporting engine
- IT-compliant hardware and communications
- SSAE-16, Safe Harbor and TRUSTe certified
- Industry-standard security device compatibility

Hosted Cloud Benefits

- No expensive server appliances required
- Increased flexibility, reliability and resiliency
- Faster system deployment
- Future-proof functionality
- Minimal IT support needed

Capacities

- Unlimited active cardholders
- Unlimited number of system-wide readers/accounts/workstations
- Maximum number of 60 customizable fields
